Danny,

Thanks for the schedule… it appears aggressive. Have proposals been received? Or permits?

There are a few items we need from the 999 landlord to include in our furniture / move procurement… specifically information regarding move-in requirements (loading dock specs, rules and regs, security, etc), and specifics on what information / how much lead time is required to get our staff's PIV cards set up for access to the building? Can you request this for us?
